

**COMFORT COLORS®**

2018 Catalog

*Comfort*

At Comfort Colors® we offer the ultimate comfort in clothes designed with a nature-inspired color palette that satisfies the soul. Whether it's their favorite Saturday morning tee to start the perfect weekend, or that cozy hooded sweatshirt for a cool night, people love to relax in Comfort Colors® apparel.

Did you know that at Comfort Colors® we've spent the last 40 years perfecting our dyeing process? What we've learnt along the way is what sets us apart from all the rest. We don't cut corners. Instead, we stick to what works: traditional, time proven, refined dyeing processes; remarkable craftsmanship in every detail, from reinforced neck taping to double-needle stitching to ensure that we deliver exceptional color and longer lasting, quality products.

Our 2018 collection adds 6 colors and a new sought-after Drop Shoulder Long Sleeve Tee. With plenty of room for shoulder-to-shoulder printing on the back, it's perfect for making a statement. Check out our expanded decorating techniques section (pages 40 and 41).

Comfort Colors® accessories are the perfect complement to any outfit. Back for a second year, don't miss our cotton totes, bags and caps. Available in several irresistible hues—and with quality finishes—they're sure to be continued favorites.

We invite you to see what's new, and live life in Comfort Colors®. Quality and craftsmanship you can trust.

Pigment dyeing is unique because it gives apparel a vintage, lived-in look. It creates a rich, layered color that softens with age so that your favorite tee looks and feels softer every day, year after year.

There is no substitute for a pigment dyed original. True pigment dyeing, true lasting comfort. Despite what others claim, Comfort Colors® is the true pigment-dye brand. Our skilled dye masters understand what it takes to achieve success in the pigment dye industry.

Don't miss our newest pigment color —rich and vibrant Boysenberry.

# Pigment Colors

**NEW** Boysenberry

Seafoam

Direct/reactive dyes allow us to combine bright hues that stand out and stay bold with the ultra-soft cotton everyone wants. Like all our apparel, these pieces have been dyed and put through a process equivalent to 50 wash cycles. This means that the colors hold up over time, and the fabric won't shrink or lose its shape. It's just one of the reasons Comfort Colors® continues to be a leader in the industry.

# Direct/Reactive Colors

This year, we add five new hues to our rich spectrum of direct dyes: Clover, Topaz Blue, Island Green, Heliconia, and Orchid. Inspired by nature and the simple joys of everyday life, these shades look great on our ring-spun cotton short and long-sleeve tees, tanks, and crewneck sweatshirts.

Clover

Heliconia

Topaz Blue

Island Green

Orchid

Living life in Comfort Colors® means celebrating life's simple joys in garments that are manufactured sustainably and responsibly. As part of the Gildan® family of brands, we're committed to our Genuine Responsibility™ program, which leads the way when it comes to corporate social responsibility. As a vertically integrated manufacturer that controls almost every step in the process, our focus is to continuously improve and reduce our environmental impact, understanding this is critical to our future growth. An example of these efforts is our adoption of renewable energy, powered within our BioMass systems where we burn agricultural and factory waste to create steam, enabling us to avoid emitting 155,000 metric tons of greenhouse gas emissions in 2016.

# Genuine Responsibility

As one of the world's largest manufacturers of apparel, we directly employ over 48,000 people. We clearly understand that empowering them to succeed is key to our success. Our commitment to them is to provide safe, ethical and rewarding work environments and ensure that we maintain high standards for labor practices, always treating them with respect and dignity. In 2016, we provided over 837,800 man-hours of training, delivered more than 178,000 free medical consultations, and provided more than 460 technical and academic scholarships for our employees and members of the community. Our commitment to our employees and the communities in which we do business doesn't stop there. Our longstanding mission is to assist in the overall development of those communities, whether it's improving literacy rates and teaching job skills or providing humanitarian aid when a natural disaster strikes. We pledge to continue to get involved so that we can make a positive impact in the communities where we operate, now and in the future. This commitment is as rich as our dyes—and it's woven into everything we make.

### Multi-Needle Waistbands

For added strength and durability so you can slip into and out of our pants with ease

### Double-Needle Stitching

All of our garments are finished with double-needle stitching so they always look great and are made to last

### Collars

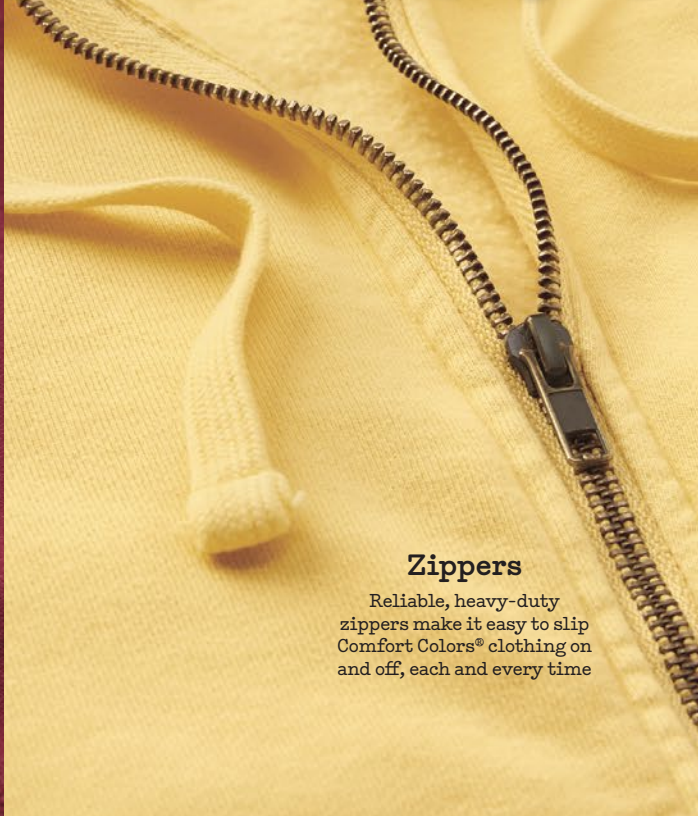

Our knit collars are crafted with a double fold for a smooth, durable finish, even after repeated washing and everyday wear

*It's all in the details*

### Neck Taping

The necks of our tees are taped from shoulder to shoulder for a superior shape, exceptional durability and must-have comfort

### Zippers

Reliable, heavy-duty zippers make it easy to slip Comfort Colors® clothing on and off, each and every time

### Brass Buckles

Our antique brass buckles and grommet tuck-ins allow caps to be easily adjusted

- Front antique brass zipper closure

#### 2 COLORS:

*Black, Khaki*

*Style 340 (Ivory/Blue Jean  
2309C/2138C) monogram was  
achieved with embroidery*

### Screen Printing (Silk Screening)

A technique that uses stencils and ink to create designs on garments. It is the most economical method for producing large quantities that involve cotton or cotton-blend garments.

### Discharge Printing

This form of screen printing uses a water-based catalyzed (activator) ink. The discharge agent neutralizes the color in the garment while also adding the new color. Discharge base (without colorant) will discharge many garments to a soft natural color.

### Foil

A premium method that combines heat and pressure to transfer foil to a garment. Foil is available in a variety of colors and patterns and can be used to create dramatic accents or overall designs on all colors and weights of fabrics.

### Hot Split Transfer Printing

Combines heat and pressure to transfer images to garments. The transfer paper is peeled away while still hot resulting in the majority of the ink melting into the fabric for a softer, lighter feeling print. This is a great option for detailed prints, customization, shorter runs and quick turnaround times.

### Puff Ink Printing

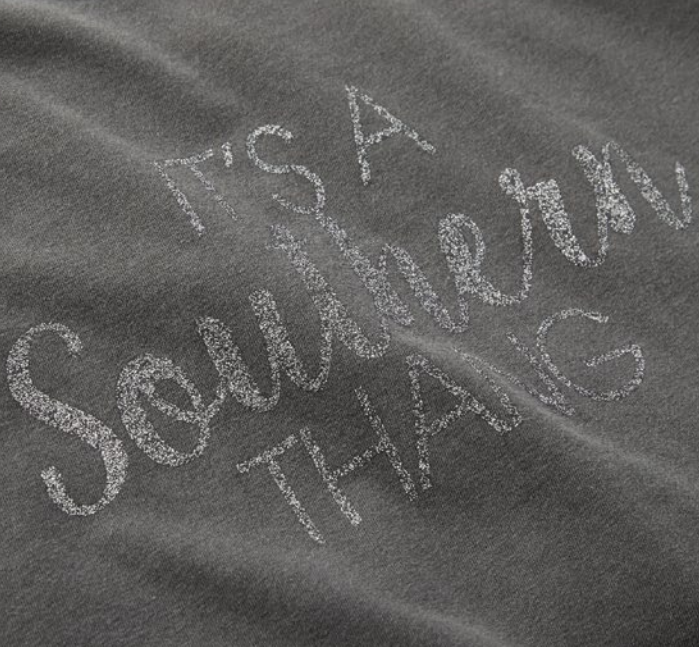

A method for creating a raised rounded effect by screen printing with an ink containing a unique foaming agent or puff additive that expands when heated. Ideal for simple designs.

### Mixed Techniques

Depending on the look to be achieved, it may be necessary to employ more than one technique to achieve the desired result. Screen printing and embroidery can be combined along with a shiny appliqué to produce a garment with a higher perceived value.

### Glitter Ink

Special clear or metallic shiny glitter can add shine or impact to a design. The glitter may be added into inks, printed as a top layer, or shaken on top of the ink. This technique works best on larger print areas with simple designs.

### Reflective Printing

Reflective inks consist of small glass beads in a carrier base. They cause any bright light to reflect off the print directly back at the viewer. This technique works best on larger print areas with simple designs.

### Neon Colors

A screen printing process using neon or fluorescent inks. On colored garments they are printed on top of a white opaque base to achieve the brightest possible ink color. Print colors range from bright orange to lime and hot pink.

### Direct to Garment

This form of printing utilizes specialized ink jet technologies to print in full color directly on garments using a water-based CMYK system for white shirts and an added white-ink for colored garments. Ideal for full color prints and for reproducing fine detail. This option is ideal for projects with short turnaround times or short runs and can work on both light and dark garments. Note though, exact Pantone® color matching is not usually possible.

### Distressed Printing

Distressed printing gives screen prints an intentionally weathered look right from the start.

### Laser Cut Appliqué

Printed material is sewn onto a garment with an embroidery machine and then a laser cuts away the excess material. This technique adds dimension and detail to your garment. Ideal for heavier weight garments such as fleece and bold designs, not fine detail.

### Ordering Information

When ordering, please have the following information available:

- Company Name/Customer Number
- Shipping Information
- Purchase Order Number

### Care Instructions

Garment-dyed goods should ALWAYS BE WASHED SEPARATELY BEFORE WEARING to avoid bleeding issues.

Due to the nature of the dyeing process employed with Comfort Colors pigment dyed shades, loose pigments may remain on the surface of the garments even after the first wash. We therefore strongly recommend washing these garments only with like-colored garments, as some of the pigment dyes may stain light or white colored garments in the wash cycle.

Washing the garments in cold water will reduce the possibility of staining. Shade variations are inherent in the garment dyeing process.

### Terms

Orders can be accepted only under the following terms and conditions:

### Prices, Quantities, Styles, Colors

Comfort Colors\* reserves the right to change pricing at any time. Comfort Colors reserves the right to change or discontinue styles, colors, sizes or fabrics. Style and color availability may vary from location to location. Inventory will fluctuate on seasonal items.

### Order Placement and Shipping

All additions to any order already placed will be considered a “new order” and written as a new purchase order. Partial shipments may be made. All freight claims for missing or damaged merchandise shipped on a customer’s account number must be filed directly with carrier.

### Shipping

We ship UPS, FedEx, plus most commercial carriers.

### Drop Shipments

Contract printers and embroiderers are responsible for inspecting goods BEFORE decorating, as decorated goods are not returnable. All claims for shortages and damaged goods MUST be made within 5 working days of receipt of goods.

### Payment Options

- **Credit Cards:** Comfort Colors accepts VISA, MasterCard, Discover or American Express at time of purchase.
- **Company Check:** For payment on account. Comfort Colors requires a completed/ approved and signed credit application for this payment method.
- **Initial Orders:** Comfort Colors will require payment by certified check or money order.
- **Wire Transfer, ACH, Certified Check or Money Order:** For either prepayments or on account for initial orders.
- **Net Terms:** Comfort Colors encourages customers to establish net terms by completing a credit application and submitting it to our Credit Department for approval. Standard approved terms are Net 30 days for those customers who meet the credit requirements of our firm. Comfort Colors reserves the right to revoke terms at any time based on its sole discretion and without prior notification.

### Return Policy

If you should experience a problem or discrepancy with an order, please contact Customer Service and have your order information ready.

- No returns will be accepted without a Return Authorization (RA) Number.
- All claims for shortages or damages MUST be made within 5 working days of receipt of goods.
- Relabeled, printed, or embroidered goods are not returnable. Please check your order BEFORE processing.
- All refused shipments and cancelled orders are subject to a 15% restocking fee in addition to all freight costs.
- Returns due to customer error, including if your customer cancelled on you, are subject to a 15% restocking fee.
- All returns MUST have a complete packing list and the RA number MUST be clearly marked on the outside of the carton and on the packing list.
- All defective goods must be clearly marked over the flaw.

### Cancellation Policy

All cancellations are subject to written approval from Comfort Colors.

*On the back cover: Style 4200 (Pepper 2336C) graphic was achieved with glitter ink*
